218., Sona Arcade, St. Mary's Road,
Opp. Regional Passport Office

Organized by

QCFI - Hyderabad Chapter

Program Module & Objectives:

New India, Atmanirbhar Bharath is ready to replace China as a global manufacturing hub, with our Make in India initiatives. This needs new approaches, new skill sets, new tools and techniques to sustain, maintain and plan for growth. For this our most valuable asset our work force need special guidance, training, motivation to achieve GOI objectives of Make in India. 360 degrees learning of allied concepts, by work force is a must need today. Understanding / appreciating the process in totality helps for better contribution for the organization. Revision of fundamentals of workshop technology / process is a must for experienced employees, since most of them have become "Routine Robo's" having expertise / excellence in a limited workplace. "Frog in the well" syndrome sets in here. This training coverage broadens the thought process and makes the workforce to think out of the box and become more dynamic, productive and contributing team members.

All participants will have rare opportunity to interact with 45++ employees, mentors/role models to revisit, relearn and upgrade their skills thru this 360 degrees learning concepts. This will bring more synergy in the work force.

Naya SOCH, Naya approach is the need. How to produce more with same resources, aim for excellence will be the focus. Navigate to get naya DISHA, and go back to work with Naya JOSH.

Topics.. Workshop will focus on:

- ◆ Revisit, Relearn present Technical services/systems.
- ◆ Production, Productivity vs market demand/supply.
- ◆ Maintenance as a tool for better asset utilisation.
- ◆ 360 degree learning of workshop terms & terminologies, knowledge of allied trade skills.
- ◆ Manufacturing process like Casting, forging, Fabrication, Welding, Heat treatment,CNC m/c etc.
- ◆ Jigs & fixtures, Metrology, tooling, gauging, measuring aids.
- ◆ Metallurgy..Ferrous, non-ferrous, Alloys, material specs.

- ◆ Work Center effectiveness via Japanese QC concepts of JIT,TPM etc.
- ◆ OEM-Equipment/ machinery effectiveness calculations.
- ◆ Spare parts planning & maintenance management.
